

NSNZ Notice - Parental Leave & Membership Fees

A reminder that on request we waive membership fees for members on parental leave, for the duration of that leave.

- Such members retain all membership benefits, but membership is effectively gratis for the term of the parental leave.
- This is a long-standing policy which is widely taken up by members, although we are finding that some members are unaware of this option, hence this reminder.
- We manage this in two ways:
 - If paying annually by lump sum, a credit is applied with a pro rata extension to the membership term.
 - For members paying by monthly automatic payment (AP), the AP is cancelled (by the member) for the duration of parental leave and setup again on return to work.
